detailed service description:

The residential building in need of renovation was extensively repaired and modernised, it was converted into a modern residential and commercial building while retaining the original character of the building.

Ahle, Fischer & Co. was commissioned with the structural work as well as plaster work and the execution of roofing and roof plumbing work.

Within the framework of the structural work, foundation and earthworks were carried out to underpin the existing foundations. The roof truss construction was renewed, the attic floor was extended and will be used as additional living space in the future.

The high-quality renovated apartments were sold. We would also be pleased to carry out high-quality roofing & roof plumbing work for you.
