client: Bezirksamt Berlin-Neukölln  
architect: Sting Architects  
order volume: 220.000,- Euro  
utilisation: secondary school  
service specification: Attic conversion

### detailed service description:

The Ernst-Abbe-Gymnasium is a very traditional reform oriented grammar school in the district of Neukölln that is committed to its name and that consciously faces the challenges of its multi-ethnic environment.

As part of the renovation of the listed Ernst-Abbe-Gymnasium, the courtyard building was also renovated in accordance with the conditions of monument law. It is a three-storey school building with a full basement in masonry construction dating from 1906-1907.

The top floor was extensively renovated and new classrooms created.

We were commissioned to carry out carpentry, timber construction and reinforced concrete work as well as roofing and roof plumbing work as part of this refurbishment.

We would also be pleased to carry out high-quality roofing & roof plumbing work for you.
